Designed to fit the VENTRAC 4100 and 4200VXD series tractors, the KW350 Cab offers exceptional visibility, while providing the operator with protection and comfort in many weather conditions. The optional console heater will provide hours of warmth while the roomy interior and additional headspace also add to operator comfort.

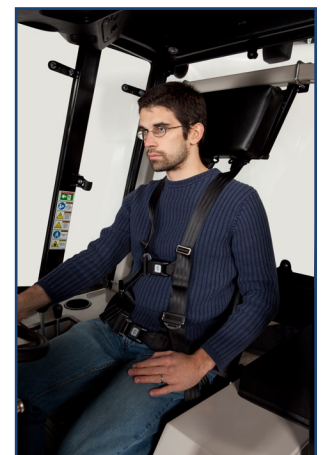

Featuring tempered safety glass, removable doors, heavy duty front wiper and interior lighting, the quality and performance you come to expect from Ventrac shines through. Standard with the KW350 cab are removable doors as well as removable side windows for year round operation and driver comfort.
