# SCOOPS

**Say goodbye to the old wheelbarrow:** Ventrac scoops move mulch, dirt, and much more, making yard work fun.

*A compact Ventrac tractor with an HE slip scoop presents a great advantage when you need to move in and around small spaces and work around tight areas where large tractors can't go.*

## Slip Scoop Advantages:

- Handy to move dirt, sand or gravel in tight, small areas
- Hydraulically controlled from the driver's seat
- Just the right size for landscaping jobs where space is an issue
- Mounts on the tractor with ease using the Minute Mount system
- Versatile use at a job site or in your own backyard
- Choice of 30" to 48" bucket sizes

## Slip Scoops HE SERIES

HE Slip Scoops are a must-have power attachment for any landowner, municipality, landscaper, small farm, resort, camp, park and hobby farm. The Scoop allows you to dig, move or level a wide variety of materials like mulch, soil, gravel, sand, and more. Combined with the Ventrac 3000 or 4000 series tractors, the slip scoop performs efficiently in areas with little room or on rough terrain and hillsides.
