

Fold Down Roll Bar

The Fold Down Roll Bar is ideal for operating your tractor in situations where a standard roll bar would obstruct operation, such as under low-hanging trees or in low-clearance areas. Always stop and place roll bar back in its upright position once you have passed under any low obstacle to ensure safe operation.

CAUTION: DO NOT OPERATE TRACTOR WITH ROLL BAR DOWN IN ANY CONDITIONS (INCLUDING ON SLOPES) THAT WOULD GIVE OPPORTUNITY FOR TRACTOR TO ROLL OVER; OPERATOR IS NOT PROTECTED.

Standard Features:

- 2 pin quick adjust
- Change for low clearance areas quickly and easily
- ROPS Approved OSHA 1928.51
- “Quiet-Lock” hinge and locking pins.
