

# LX423 Snow Blower

The 42 Inch wide LX423 Snow Blower for the Ventrac 3000 series is built for commercial snow clearing operations of sidewalks, driveways, and other areas. A two stage snow blower, the LX423 features a 16 inch diameter solid auger for best snow transfer, a large 20 inch diameter fan, and the ability to move 2500 pounds of snow per minute at distances up to 40 feet. Standard features include adjustable cast iron skid shoe discs at the rear, high carbon hardened steel shoes at the side, and a reversible high carbon hardened steel cutting edge.

The hydraulically activated discharge chute can rotate 180 degrees, all from the convenience of Ventrac's exclusive S.D.L.A. Control System. Chute deflection is manually adjustable. An electric chute deflection controller is
