

Product Enhancement:

SPREADER

SS300

For Ventrac 3000 & 4000 series tractors

Designed for Snow & Ice Management Applications

Enhancements....

- Steel Spinner - *More Durable than Plastic*
- Higher Rated Controller - *Better Start Up Torque*
- Minimal flow auger - *Better Flow Control*
- Flip Up Drop Curtain – *Quickly converts to wide area spreading without removing the drop curtain. Stainless fasteners to limit corrosion.*

Materials Spread....

- Bagged Rock Salt
- Calcium Flake

The **Ventrac SS300** spreader is designed for **Snow & Ice Management Applications**. It is used to spread materials such as **bagged rock salt** and **calcium flake**.

The SS300 features a 3 cubic foot capacity. An electronic control box comes standard and features an electronic speed control and On/Off switch.

Variable Speed Electronic Controls.

An optional **Drop Curtain** is available for spreading material in tight quarters. The new flip-up design allows for easy storage when using spreaders in larger areas. Fits both **SS575** and **SS300** spreaders.

Optional Drop Curtain

Drop Curtain flips up when not in use.
