Compatibility Notes:

The RV602 collection vacuum can not be used on a power unit equipped with a **Ventrac cab** or **canopy**.

The RV602 collection vacuum can not be used on a 4500Z power unit equipped with a propane kit.

The RV602 collection vacuum can not be used on a 4500 power unit equipped with directional/hazard lights.

The Ventrac RV602 Vacuum Collection System is for grass and leaf collection, and it consists of three primary components:

1. The bin assembly - mounts to the rear of Ventrac 4500 tractors ^{^(see next page for compatible units)}
2. The **suction/blower system** - powered by a 10HP B&S Vanguard engine with electric start for efficient pickup and superior performance
3. **High lift mechanism** - hydraulically raise the collection bin up to 60 inches and dump to unload the contents into a garbage bin or trailer.

STANDARD FEATURES

- All steel construction
- Hydraulic lift and dump
- Electric start engine
- Collection boot is quickly and easily attached to the mower deck
- Handle on hose and hose end for ease of vacuuming flower beds, etc.
- Hose clamp for attaching hose to collection boot is an over-center clamp for ease of connecting
- Storage Stand

Optional Accessory:

- Docking Station
